## Summary

**Full-Stack Developer with 4+ years of experience in Angular, ASP.NET, Web API, SQL Server, and Azure**, delivering robust, high-performance web applications for government and financial systems, focused on clean architecture, performance optimization, and code quality.

## Skills

**Core Skills:** Angular, ASP.NET, Web API, SQL Server, Azure, REST APIs, CI/CD, Agile

**Programming Languages:** TypeScript, JavaScript (ES6+), C#, SQL, HTML5, CSS3, SCSS

**Technologies & Tools:** Angular 8–17+, RxJS, Angular Material, PrimeNG, NgRx, Bootstrap, Components, Services, Routing, Reactive Forms, HTTP Client, Dependency Injection, Standalone Components, Signals, Lazy Loading, .NET Core, ASP.NET WebForms, Web API, SQL Server, MySQL, REST APIs, Azure App Services, Jasmine, Karma, Git, GitHub, Azure DevOps, Visual Studio, Postman, CI/CD Pipelines

## Work Experience

**MPOnline Limited, Bhopal**

Jan 2025 - Present

### Software Engineer

- **Led the development of enterprise web applications** using **C#, ASP.NET Core, ASP.NET WebForms, Web API, and SQL Server**, coordinating with cross-functional teams to ensure timely delivery and high code quality.
- **Designed and optimized backend services and data workflows**, improving application responsiveness and performance by **40%** through efficient API design, query optimization, and business logic enhancements.
- **Integrated backend services with Angular-based UI modules**, supporting features such as **lazy loading, reactive forms, and dependency injection** for a responsive and maintainable user interface.
- Deployed and maintained applications on **Azure App Services**, ensuring **high availability, auto-scaling, and secure access**, while enforcing **modular code practices** for long-term maintainability.

**Infosys, Indore**

Jan 2022 - Dec 2024

### Senior System Engineer

- Designed and developed a dynamic **Account Opening Web Application** for a U.S.-based banking client, accelerating **customer onboarding by 50%** using **Angular 14+, TypeScript, HTML5, SCSS, and Bootstrap**
- Engineered responsive and scalable UI components, **improving page performance and user experience by 40%**, with seamless cross-browser and mobile-first compatibility
- **Streamlined data retrieval processes** within REST APIs by **re-architecting** caching mechanisms and **reducing** payload sizes, leading to a **35% decrease in average API response times** and **15% reduction in server costs**
- Collaborated in an **Agile Scrum team**, using **Git, JIRA, and CI/CD pipelines** for version control, issue tracking, and automated deployment of Angular applications

## Project Work

**Madhya Pradesh Government Counselling & Recruitment Systems | MP Online Ltd.**

- Built and optimized **MP state recruitment and counselling workflows** (registration, choice filling, merit processing, reporting) using **ASP.NET Core, Web API, SQL Server, Angular 17+ and Azure**, improving peak-time system response by **35%**
- Implemented **audit-compliant validations and robust error handling** across **Angular UI and .NET backend**, ensuring **data integrity** and reducing production defects and support issues by **40%**.

**Citizens Account Opening Platform | Infosys**

- Architected end-to-end **digital onboarding workflows** for a **U.S. banking client** (KYC capture, document upload, account verification) using **Angular 14+, TypeScript, and REST APIs**, cutting onboarding cycle time by **30%** while ensuring **regulatory compliance**.
- Implemented **API-driven validations, structured form validation, and exception handling** within the **Angular frontend**, improving **data integrity, security, and system stability** for **high-volume** traffic and supporting **UAT and production releases**.

## Education

**University Institute of Technology, RGPV**

Jun 2017 - May 2021

Bachelor of Technology in Mechanical Engineering (Extensive Software Development Experience)

**CGPA: 7.54/10**
